

Access. Affordability. Accountability. Jobs.

Improving Access to Affordable, Quality Health Care

Justus-Warren Heart Disease and Stroke Prevention Task Force

January 9, 2017

Betsy Vetter
Regional Vice President of Government Relations
American Heart Association/American Stroke Association
Chair, Care4Carolina

Access. Affordability. Accountability. Jobs.

About Us

- ▶ Care4Carolina is a statewide coalition that seeks to strengthen the economic and social wellbeing of our state by increasing access to affordable, quality health care for all North Carolinians.

Care4Carolina

Access. Affordability. Accountability. Jobs.

- ▶ NC Justice Center
- ▶ NC Pediatric Society
- ▶ NC Public Health Association
- ▶ Novant Health, Inc.
- ▶ OIC Family Medical Center
- ▶ The Carolinas Center for Hospice and End of Life Care
- ▶ The North Carolina Dietetic Association

Access. Affordability. Accountability. Jobs.

Increasing Access

- ▶ Care4Carolina believes the development of a **North Carolina strategy** that increases access to affordable health care will strengthen and protect economic prosperity while preserving the freedoms and opportunities that are cherished by the people and businesses of the state.

Access. Affordability. Accountability. Jobs.

The Value

- ▶ Covering the uninsured means better premium value for North Carolinians with private health insurance by lowering costs for everyone.
- ▶ Providing health insurance coverage will help people gain access to the care they need which improves health outcomes.
- ▶ A healthier North Carolina workforce strengthens the economic and social well-being of the state.

Access. Affordability. Accountability. Jobs.

The Issue of Access

- ▶ Without the stability of health insurance, many access needed care through emergency rooms.
- ▶ The problem is even greater for those with health conditions who don't receive regular treatment and care.
- ▶ They face potential greater complications from their conditions and higher mortality rates.

Access. Affordability. Accountability. Jobs.

Access and CVD

- ▶ The uninsured with CVD experience poorer blood pressure control than their insured counterparts.
- ▶ Those who suffer a stroke experience greater neurological impairments, longer hospital stays and a 24-56% higher risk of death than the insured.
- ▶ A 12-year study of more than 7,000 Americans showed that individuals without health insurance, especially those with heart disease, stroke, high blood pressure or diabetes, experienced a dramatic improvement in health when they become eligible for Medicare coverage at age 65.

Access. Affordability. Accountability. Jobs.

Insurance Gaps

- ▶ In North Carolina currently a coverage gap exists for more than 300,000 low-income individuals that have no affordable health insurance options available to them.
- ▶ Medicaid currently covers fewer than half of people in poverty.
- ▶ In NC there are nearly 12,000 low-income veterans without access to comprehensive health insurance coverage.

The Current Gap

- ▶ **Who is in the current coverage gap?**
 - **82%** Adults with dependent children
 - **48%** People of Color
 - **53%** Females
 - **66%** In a working family

Access. Affordability. Accountability. Jobs.

Rural Disparities

- ▶ Because of the demographics of the communities they serve, most rural hospitals and health clinics are heavily reliant on reimbursement from Medicare and Medicaid.
- ▶ Research from the UNC Sheps Center for Health Services states that 7 rural hospitals in North Carolina are at high risk due to financial instability.
- ▶ A major cause for the financial instability of rural hospitals is that the population they serve is both without insurance coverage and unable to pay for services.

Access. Affordability. Accountability. Jobs.

Our Goal

- ▶ *Care4Carolina seeks to strengthen the economic and social wellbeing of our state by increasing access to affordable, quality health care for all North Carolinians.*

Access. Affordability. Accountability. Jobs.

Key Elements

- ▶ A North Carolina Strategy should include:
- ▶ **Access:** Eliminate disparities and gaps in health care coverage so all North Carolinians can access health care.
- ▶ **Affordability:** Health care coverage and services should be affordable for all North Carolinians.
- ▶ **Accountability:** All North Carolinians should receive affordable, high quality health care. Preventive benefits should be an essential component of meaningful health care coverage.
- ▶ **Jobs:** Promote growing and diversifying North Carolina's health care workforce.

Access. Affordability. Accountability. Jobs.

How to Help

- ▶ Monitor and participate in health care reform discussions.
- ▶ Attend meetings of Care4Carolina and keep Task Force members informed.
- ▶ Seek opportunities to provide expertise and input related to access to health care and cardiovascular health.

Access. Affordability. Accountability. Jobs.
